My name is Jonathan De Los Santos and I am the Director of Operations & Business Development with Advanced PMR where we provide the finest in healthcare. I wish to take this opportunity and provide you with some information about our state-of-the-art practice and to secure event dates at your workplace.

Advanced PMR serves all residents of Central NJ. Founded in 2011, the Advanced PMR family of offices has grown rapidly with offices in Belmar, Red Bank, Manalapan, Edison, Brick, Morganville and Robbinsville. Advanced PMR offers a unique and customized approach and offers 1-on-1 care in a spa like setting for physical therapy, acupuncture, chiropractic, medical supplies and a vast array of other wellness and rehabilitation services along with free transportation for everyone we serve. Our facilities are outfitted with state-of-the-art equipment. Our team has one goal in mind, to ensure that everyone is fully satisfied and in the best shape they can be.

We have had tremendous success with the employee appreciation events we have done in the past at many local schools & businesses. Our process is simple: we set a date, visit a facility alongside our skilled clinicians and provide complementary sports massages along with a brief session of acupuncture for all of the faculty and staff. This day is completely free, and our mission is to give back to the staff that work so hard to educate the youth of our community. We have received an overwhelming amount of positive feedback from hosting these events in the past and we strongly believe that that bringing such awareness better serves the community you and I live in.

We understand that daily stresses can cause aches and pains. When patients continue their plan of care at any of our local facilities we find that their quality of life is greatly improved due to increased mobility, strength and above all the ability to unwind and relax.

I truly believe your staff will appreciate these events and find the rest of the year nice and relaxing. Please contact me to discuss, either via email or phone, 908-415-3040. I look forward to speaking with you to finalize these event dates.

Sincerely,  
Jonathan De Los Santos
